HOMES SOLD (3 MO, EST.)	WEIGHTED MEDIAN PRICE
$929M	**+92%**
EST. SALES VOLUME	PRICE VS METRO AVG

Population / income not shown — no demographic extract supplied.

Housing-market figures: Redfin Data Center ZIP-code tracker, all residential, 3 months ending May 2026. ZIP values are apportioned to each ring by area overlap (assumes sales are spread evenly across a ZIP), so they are estimates; the price is a sales-weighted average of ZIP medians, not a true ring median. ZIP areas are Census 2010 ZCTAs. Population, household and income figures appear only when a demographic extract is supplied (inputs/demographics.csv); none is bundled.
