TOP 5 ZIPS

77079	87
77024	87
77042	85
77479	83
77573	83

Screening score, not a site verdict. Built only from public inputs available here: Redfin ZIP housing market (May 2026; used as proxies for demand, land cost and liquidity — not commercial rents, zoning, flood risk or parcel availability) and straight-line distance to generalized Natural Earth highways and airports. Each factor is converted to a 0–100 percentile across the metro's ZIPs, then weighted.
