Industrial / Logistics Suitability

Houston metro · Light industrial and distribution: access first, cheaper land

SAMPLE BRAND

SUITABILITY SCORE

- High (74–90)
- Good (58–74)
- Moderate (42–58)
- Fair (26–42)
- Low (10–26)

WEIGHTS

Highway access (distance to Interstate/Beltway/US)	40%
Lower home prices (land-cost proxy)	25%
Airport access (IAH / Hobby)	20%
Liquidity (shorter days on market)	15%

TOP 5 ZIPS

77060	90
77034	90
77087	89
77503	84
77598	83

Screening score, not a site verdict. Built only from public inputs available here: Redfin ZIP housing market (May 2026; used as proxies for demand, land cost and liquidity — not commercial rents, zoning, flood risk or parcel availability) and straight-line distance to generalized Natural Earth highways and airports. Each factor is converted to a 0–100 percentile across the metro's ZIPs, then weighted.
